## **SUPERCITY STUPID HOCKEY LEAGUE GM PLEDGE**

I will respond to all pool-related email in a timely manner, and will give each trade offer the consideration it deserves.

I will ensure a trade report is sent after every transaction that I make.

I will periodically review my listing on the Roster Reference page, especially after drafts and transactions, to ensure it is accurate.

I will submit my frozen roster and throwbacks list before the stated deadlines, and without excessive prompting from the league office.

I will participate in the annual entry and waiver drafts, or make arrangements for my picks if I am unable to attend.

I will keep my team manager page up-to-date, and will immediately notify the league office of any technical issues.

I acknowledge that the league office keeps track of over 800 drafted players and 364 entry draft picks spread amongst 26 franchises in 2 time zones, and that all league office rulings are made in the best interest of maintaining overall pool integrity.

I will abide by all league office rulings in matters of controversy or conflict.

**THE GENERAL MANAGERS OF THE SUPERCITY STUPID HOCKEY LEAGUE**

# SSHL RULE REFRESHER

## **ROSTER INTEGRITY**

You should have 18 skaters (including 6 defensemen) and 2 goalies with NHL stats on your active roster at all times. If you have less than the required number of players with NHL stats available, you can use non-NHLers to fill out your active roster. If you have more than the required number of players with NHL stats available, your active roster must reflect your best possible team.

## **FARM TEAM ELIGIBILITY**

If a player (skater or goalie) qualifies as a rookie this season, he can be protected on the farm going into next season. A player qualifies as a rookie if he has not played more than 25 games in any single preceding season, nor in six or more games in each of any two preceding seasons. In addition, if a goalie has less than 1,000 minutes played this season, he can be protected on the farm going into next season regardless of whether or not he is a rookie.

## **GOALIE COMBO**

Goalie combo is  $(WINS \times 20) + (TIES \times 10) - (GAA \times 100)$ . For example; if a goalie has 40 wins and 10 ties and a GAA of 2.00, his goalie combo is  $800 + 100 - 200 = 700$ .

## **WILDCARDS**

The two wildcard slots on your roster can be filled by either forwards or defensemen.

## **DESIGNATED HITTERS**

You're able to designate one player as your DH, which means his PIMs will not count in your totals, but all his other stats will. This player can be a forward or a defenseman. If it's a defenseman, you need to designate only 5 other players as defensemen on your roster.

## **GOONS**

Your goon's penalty minute total is subtracted from your team's penalty minute total. If your goon reaches 225 PIMs, you gain his other offensive stats in your totals as well (goals, assists, points, ppg, shg, and plus/minus). Note that the goon slot is 'position-neutral', meaning if your goon is a defenseman, you still need 6 other defensemen on your roster.

## **PENALTY MINUTE RATIO**

This is the total of all your player's PIMs divided by all their total games played. A lower PIM ratio results in more points being awarded to your team in this category. Note that the PIMs accumulated by your designated hitter do not count toward your total, and the PIMs accumulated by your goon are subtracted from your total.

## **TEAM CAPTAINS**

Each member franchise will name an Honorary Team Captain and two Honorary Assistant Captains. The Team Captain can be any retired NHL player who, in the opinion of the GM, best epitomizes his franchise, or was a favourite of his childhood. For the Assistant Captains, one must be deceased, and the other must closely resemble one of the GM's names (for example, GM Brendan David Ellbtt might select Dave Ellett; GM Todd Gillis might select Clark Gillies).

## **GM OFFSPRING**

GMs can add their own offspring to their SSSL roster, but must use legitimate entry draft picks to select them. These offspring will then be granted honorary roster spots, and do not have to be protected on the 27-man roster submitted prior to each entry draft. Offspring cannot be included in transactions, used as waiver-draft throwbacks, or selected in an expansion draft.

## **TRADE FEES**

Each SSSL trade costs 50 cents, each player involved in a trade costs another 50 cents, and each draft pick involved in a trade costs another 25 cents. For example, if someone trades Grant Fuhr, Geoff Courtnall, Dave Andreychuk and a 7th-round pick for Martin Brodeur, Peter Forsberg and 1st and 2nd-round picks, the fee for the trade shall be 50 cents (trade fee) + \$2.50 (5 players X 50 cents) + 75 cents (3 draft picks X 25 cents) for a total of \$3.75. These fees are tallied before the entry draft and split among the GMs involved unless a provision of the trade says one GM shall cover the entire fee. All proceeds from trade fees shall go into the annual kegger fund.

## **TRADE DEADLINES**

The trade deadline will occur early in January, a month before the waiver draft. However, one trade can be consummated after the trade deadline, but that trade must involve a waiver pick, and shall not involve more than four players or picks. Since a waiver pick must be part of this trade, only three other players or picks may change hands. The deadline for consummating a 'waiver trade' will occur two weeks after the trade deadline, and two weeks before the waiver draft.

## **ROSTER FREEZES**

The first roster freeze occurs a week before the entry draft; at this time, all GMs must submit a list of 9 forwards, 1 goon, 5 defensemen, 2 goalies, and 10 farmers to the league office using the Supercity Preseason Roster Freeze Form. All other players above this 27-player limit must be thrown back into the pool of undrafted players.

The second roster freeze occurs three weeks after the waiver draft; at this time, all GMs must submit a list of 9 forwards, 1 goon, 6 defensemen, 2 wildcards, and 2 goalies to the league office using the Supercity Active Roster Freeze Form. This roster must reflect the lineup on your team manager page, and, after the active roster freeze occurs, no further changes can be made to your team manager page until the end of the season.

## **THE 25 BIGGEST TRADES OF 2002/03**

(Reverse chronological order, from the roster freeze to the kegger)
